The 2016 Filing Season

- **Our enhanced efforts to protect Illinois taxpayers from identity theft and tax fraud have proven to be highly successful. We will continue to combat the criminals attempting to steal taxpayer identities to file fraudulent tax returns while making every effort to get tax refunds issued as quickly as possible.**
- Due dates which fall on April 15, 2017, have been extended to April 18, 2017. We are following the Internal Revenue Service in extending the due date because of the Emancipation Day holiday being observed on April 17 in the District of Columbia.
- All updates for the tax filing season will be posted to our website at **tax.illinois.gov**. We encourage taxpayers to check back for the most up-to-date information.
- MyTax Illinois, our **free** online account management program, provides a centralized location on our website where taxpayers may electronically file tax returns and supporting schedules, make payments, register a new business, or manage their tax accounts. Taxpayers are not required to create a MyTax Illinois account to file their **Form IL-1040**. First-time Illinois filers must have a state of Illinois-issued driver's license or identification card and use the non-login filing process to file their return.
- MyTax Illinois will begin accepting 2016 Individual and Business Income Tax returns on January 23, 2017.
- Filing electronically through MyTax Illinois or the modernized e-file system (MeF) is the best filing option. There is **NO** advantage to sending us a paper return by mail.
- Several changes have been made to the withholding income tax filing process. For more information, see Informational Bulletin FY 2017-07.

Individual Income Tax

Changes on the 2016 Form IL-1040, Illinois Individual Income Tax Return

- The Illinois Individual Income Tax rate for calendar year 2016 is 3.75 percent (.0375).
- Taxpayers and their dependents will receive an increased standard exemption allowance this year. The standard exemption allowance has increased from \$2,150 to \$2,175 for the 2016 tax year.
- The check box to receive a paper 1099-G has been removed from the 2016 Form IL-1040. If you checked the box on your 2015 Form IL-1040, you will receive a paper 1099-G for tax year 2016 if you meet the criteria requiring a 1099-G. However, for tax years 2017 and after, you should obtain your 1099-G information from our website at tax.illinois.gov.
- The due date for filing your 2016 Form IL-1040 and paying any tax you owe is extended to April 18, 2017.
- Any tax preparer who is paid to prepare or assist in preparing an Illinois Individual Income Tax return must sign and date the return, provide a phone number, and enter their preparer tax identification number (PTIN) issued by the Internal Revenue Service.

Business Income Tax

Changes on the 2016 Illinois Business Income Tax returns and schedules

- If you are a C corporation required to file **Form IL-1120**, and your tax year begins on or after January 1, 2016, the original filing and payment due dates for your 2016 tax return **may** have changed.
 - **Calendar year C corporations** will receive an extra month to file their return and pay their tax. The original filing and payment due date will change from March 15, 2017 to April 18, 2017.
 - **Fiscal year C corporation filers whose tax year ends on a date other than June 30** also will receive an extra month to file their return and pay their tax. Their original filing and payment due date will be changed to the 15th day of the 4th month following the close of the tax year.
 - **Fiscal year C corporation filers whose tax year ends on June 30** will retain an original filing and payment due date of the 15th day of the 3rd month following the close of the tax year.

Their original filing and payment due date will remain unchanged as September 15th until the year 2026 when it will change to October 15th.

- **Cooperatives who file Form IL-1120** will retain an original filing and payment due date of the 15th day of the 9th month following the close of the tax year regardless of when their tax year ends.

The changes to calendar year and fiscal year C corporation filers are consistent with federal filing due date changes enacted in June 2015. 2016 C corporation original filing and payment due dates can be found at the end of this bulletin.

- There are **no** changes to original filing or payment due dates for S corporations, partnerships, trust/estates, or exempt organizations in Illinois. See the instructions for your tax return for more information.
- In order to accommodate the federal filing due date changes, the regulations regarding Illinois Income Tax extended due dates, 86 Ill. Admin. Code section 100.5020, also have changed. The new regulations state that the Department will grant an automatic extension of 6 months to taxpayers whose returns are due on the 15th day of the 4th month following the end of the tax year and 7 months for all other taxpayers. For most taxpayers this means that there will be no change to their extended due date which will remain the 15th day of the 10th month following the close of the tax year. There are four exceptions:
 - **Cooperatives who file Form IL-1120** will continue to receive a 7 month extension to file. Their extended due date will remain the 15th day of the 16th month following the close of the tax year.
 - **Exempt organizations who are classified federally as corporations** will continue to receive a 7 month extension to file. Their extended due date will remain the 15th day of the 12th month following the close of the tax year.
 - **Exempt organizations who are classified federally as 501(c) trusts** will now receive a 7 month extension to file. Their extended due date will be changed to the 15th day of the 12th month following the close of the tax year.
 - **Lloyd's plan of operation filers** will continue to receive an Illinois extension which will be the same length of time as their federal filing extension.

2016 extended due dates can be found at the end of this bulletin on Page 6.

- IRC Section 807 amounts have been included on Line 15e of the **Schedule M (for businesses)**. In addition, two subtractions have been added to Line 19 of the **Schedule M (for businesses)**. See the **Schedule M** Instructions for more information.
- The calculations to determine the amount of required estimated tax payments on **Form IL-1120-ES** and **Form IL-2220** have been updated to more accurately determine if estimated payments are required, the amount of required estimated payments, and how Illinois gambling withholding should be applied against the required payments. See **Form IL-1120-ES** and **Form IL-2220** for more information.
- The total amounts for nonresident individual and nonresident estate members have been split into separate lines on Section A of the 2016 **Schedule B** and **Schedule D**.
- August 1, 1969, appreciation amounts have been included in the **Schedule K-1-P(3)** and **Schedule K-1-T(3)** calculations of pass-through withholding payments you owe on behalf of your nonresident members. See **Schedule K-1-P(1)** or **Schedule K-1-T(1)** for more information.

If you were a short-year filer using the 2015 return and did not claim the River Edge Historic Preservation Credit because your tax year **began** on or after July 28, 2016, you may amend that return to claim the credit. In addition, the sunset date of the River Edge Historic Preservation Credit was extended by P.A. 99-0914 and may be claimed on the 2016 Schedule 1299-A or Schedule 1299-D, if applicable.

Withholding Income Tax

Changes that affect Illinois Withholding Income Tax for the 2017 tax year

- **Effective January 1, 2017, all Illinois Withholding Income Tax filers will be required to file their IL-941 returns quarterly and make their payments on either a monthly or a semi-weekly payment schedule.**

Illinois withholding income tax payment and filing schedules can be found at the end of this bulletin on Page 6.

- **Form IL-941** and Instructions and **Form IL-941-X** and Instructions have been updated.
 - Line C has been added to Step 2 to verify compliance with the Illinois Secure Choice Savings Program Act (820 ILCS 80/1, et seq.). For more information go to illinoisretirement.gov.

- Step 4 has been updated to include a section for entering required withholding information for each month of the quarter. Step 4 has entry lines for the amount of income tax withheld based upon the day the compensation was paid (payroll dates). This information will be used to enforce the late payment penalty for Withholding income tax payments explained in Publication 103.
- Step 7 includes a line for preparers to enter their IRS-issued preparer tax identification number (PTIN). This is required per the State Tax Preparer Oversight Act (35 ILCS 5/503).
- The Illinois Income Tax rate for individuals remains at 3.75 percent (.0375).
- The Illinois Individual Income Tax exemption amount remains at \$2,175. For more detailed information, and for assistance with calculating the amount to withhold, see the updated **Booklet IL-700-T**.
- All electronically submitted **W-2** forms are due by February 15, 2017. Electronically filing **W-2** forms helps combat tax return fraud and identity theft. When filing electronically, make sure the data fields in the file are complete with the Illinois-specific information. Penalties apply for late filing. **Important:** This is a separate transaction from your electronic **W-2** submission to the federal government. See the **Electronic W-2 Transmittal Program** page on our website for more information.
- Reminders:
 - If you have 250 or more W-2's or you are required to submit your W-2s electronically to the federal government, then you are required to submit your W-2s electronically with Illinois.
 - If you have been assigned to the monthly payment schedule and you withhold more than \$12,000 during a quarter, you must begin paying semi-weekly in the following quarter, the remainder of the year, and the subsequent year.

Important information for tax preparers and software vendors regarding 2017 tax forms

- As a result of P.A. 99-0641, for taxable years beginning on or after January 1, 2017, any tax preparer who is paid to prepare Illinois Individual, Business, or Withholding Income Tax returns must enter the preparer tax identification number (PTIN) issued to them by the Internal Revenue Service. The Individual, Business, and Withholding Income Tax forms have been revised to enable paid preparers to provide this information. See the instructions for your return for more information.
- Substitute or reproduced paper forms must be submitted and approved through our Forms Approval Program prior to use. See the **Guidelines for Substitute Tax Forms** under the Tax Professionals / Developers Section on our website.
- All payment vouchers (and some forms) require a scan line at the bottom that is specific to the taxpayer and filing period. Documents with a scan line **should not be duplicated** for other taxpayers or filing periods. This could delay processing for the taxpayer.
- If you are a tax preparer, make sure your tax preparation software is up-to-date. Using the most recently updated version of your tax preparation software helps reduce the time it takes us to process your clients' returns, and helps ensure the security of your clients' tax information.
- All electronically submitted **W-2** forms are due by February 15, 2017. Electronically filing **W-2** forms helps combat tax return fraud and identity theft. When filing electronically, make sure the data fields in the file are complete with the Illinois-specific information. Penalties apply for late filing. **Important:** This is a separate transaction from your electronic **W-2** submission to the federal government. See the **Electronic W-2 Transmittal Program** page on our website for more information.
- If you are a tax professional, see the **Tax Professionals** page on our website for up-to-date news and resources.
